information**

 **08000 831 094**

 **enquiries@topseal.co.uk**

You can become an approved installer of the BBA certified range of Topseal GRP flat roofing systems including the revolutionary Topseal Direct Lay system. The Topseal two day training programme includes theory and practical elements and will allow you to strengthen the range of services your company offer.

- 2 day extensive training course at our head office in Harrogate
- Site visits and inspections
- Sales and marketing support
- Sales leads provided
- Unique approved installer verification number
- Technical and specification support
- Intense 1 day mobile training course also available at your premises or the NSBRC in Swindon (restrictions apply)

### Topseal features and benefits:

- BBA certified range of GRP roofing systems
- Suitable for domestic, commercial, refurbishment and new builds
- Exclusive Direct Lay system which allows you to install onto existing substrates
- Only installed by Topseal approved installers
- 20 – 40 year guarantees available
- Extended and insurance backed guarantees available
- Safe and easy to install, no heat required
- Quick application times
- AA fire rating
- ISO:9001 and ISO:14001 certified
- Range of colours and finishes available
- Dedicated technical and specification team
